- Heavy duty carts for transporting chaffing dishes and large coffee pots.
- Special brackets on each shelf prevent chaffing dishes & coffee pots from sliding around and colliding with one another thereby reducing or eliminating costly damage.
- Available in aluminum and stainless steel.

Executive chefs, stewards and food and beverage directors know how expensive it is to repair/replace these chaffing dishes and large coffee pots. The constant breakage puts a crimp in any budget and transporting these dishes/pots from kitchen to the dining hall has always been a problem.

These carts offer an excellent solution. Special brackets on shelves restrict the movement and prevent spilling and colliding. Carts come completely assembled with 8" poly casters and non marking perimeter bumper.
