- All aluminum patient tray delivery carts.
- Double section, non-insulated, easy to maneuver.
- Choice of single end loading or double side loading for 15"x20" trays.

These carts provide exceptional value and are extremely well built to provide years of service. Slides are fixed extruded side panels and require little or no maintenance. These carts use 0.125" thick aluminum deck & uprights with, top, back & door ranging in thickness from 0.063" thru' 0.080". S/S hinges provide 270 ° door swing. One push handle, 5" polyurethane casters and wrap around bumper are standard.
